A WORKING WOMEN'S SUMMIT

www.ucnj.org/ucmb

FROM THE FREEHOLDER CHAIRMAN

SERGIO GRANADOS

Welcome to the Union County Women Mean Business Summit. This is the sixth installment in our annual series, initiated by Freeholder Linda Carter in 2013 to help working women build their skills, grow their networks, and meet the challenges of today's economy.

As Freeholder Chairman working alongside my colleagues on the Freeholder Board, we are committed to ensuring that we continue to make progress on women's empowerment and equality in the workforce, and continue to grow entrepreneurship opportunities here in Union County.

Recent events have underscored the need to shed outdated taboos, and take charge of the public debate over workplace harassment and other key issues that affect women in business. With that in mind, today's breakout sessions are designed to help you determine how to shape your future in this new landscape.

In closing, we are very proud to have Ms. Tammy Murphy, the First Lady of the State of New Jersey, as our special guest speaker. She has a wealth of experience, both globally and here at home, to share with us, and we are all looking forward to an inspiring and informative event.

I wish you all a very exciting and enriching experience.

OUR KEYNOTE SPEAKER FIRST LADY TAMMY SNYDER MURPHY

"I cannot tell you how very thrilled we are to now have an official mandate to continue listening and working together -- with you -- to bring out the very best of our state." – Tammy Murphy

Tammy Snyder Murphy's upbringing, career, and worldview have been consistently shaped and defined by family, education, service, and leadership. Whether running for student office during college, thriving in a competitive and male-dominated industry, starting and working with nonprofits, or joining the Women's March in Trenton, Tammy has always believed in problem-solving through coalition-building and participation.

Tammy and Governor Philip D. Murphy have been married for 23 years and together have four children: Josh, Emma, Charlie, and Sam.

A transformative experience for the Murphy family was proudly representing the United States in the Federal Republic of Germany. Tammy, individually and together with her husband, spoke and led on behalf of the United States of America. She chaired meetings, gave speeches, and hosted meals and receptions, strengthening our nation's relationship with a critical ally while impacting the lives of thousands of Germans and Americans.

Upon returning to New Jersey, Tammy and Phil realized that the incredible state they called home was in need of bold new leadership. Together, they founded a think tank to explore ways to help grow the middle class and jumpstart New Jersey's economy. Most recently, Tammy has been energized and inspired traveling the state and meeting New Jerseyans to hear their concerns, both with Phil and as his surrogate, utilizing her experience in the private and nonprofit sectors to work through policy ideas and solutions, and supporting and advising the Governor on his transition.

A graduate of the University of Virginia (B.A., English and Communications, 1987), Tammy currently sits on the University's Board of Visitors. She also serves as Secretary and charter member of The Climate Reality Action Fund, an organization founded by former Vice-President Al Gore. Over the years, Tammy has worked with non-profits, a think-tank, and other organizations focused on the environment, education, health care, youth and family services, as well as the arts and trans-Atlantic relations. Tammy previously worked in finance in the U.S. and Europe and has traveled extensively throughout the world living overseas in each of London, Frankfurt, Hong Kong, and Berlin. She speaks German and some Italian.

As First Lady, Tammy will continue being a partner to Phil as he works with Lieutenant Governor Sheila Oliver to tackle the formidable challenges facing the state and its incredible residents.

ELIZABETH NUSSER

I've always tried to live a healthy lifestyle: consistently mindful of my food choices and the incorporation of activity into my weekly routine. In my mind, cheating every now and again on my diet and exercise plan was acceptable because I believed my lifestyle was relatively consistent. I am sure many people can relate to this mindset.

Despite my efforts, the work I was putting into my diet and exercise plan weren't consistent with my actual results—in fact, just the opposite was happening! When the scale was just shy of 200 pounds I recognized that I needed to make a life changing commitment to myself. I set clear goals and vowed I would do whatever it took to reach them. I also took ownership over my excuses and no longer allowed myself to use cravings, my PCOS diagnosis, genetics or high cholesterol as an excuse for my weight issues.

Through experimenting with a variety of wholesome foods, I was able to learn through experience how the foods with which we choose to fuel ourselves can truly affect our body and mindset. I learned that my body was unique; there was not one diet plan that would work for everyone.

This positive lifestyle change is what put me on this path to becoming a health coach. I wanted to use my personal experiences to help others make changes to live a healthier, happier life!

I have been blessed to find my passion in life as a health coach and personal trainer. I hold a Bachelor of Arts degree in Psychology, as well as a health counseling certification from the Institute for Integrative Nutrition and a certified personal training certificate from the National Academy of Sports Medicine. I am trained in over one hundred dietary theories and studied a variety of practical lifestyle coaching methods. I am further trained to develop exercise programs based on scientific, evidence-based research, which push my clients beyond their limits to further improve their health. I work with my clients to assist them in creating a personalized plan that suits each unique body, lifestyle, preferences and goals.
