The Respite Care Program is a program that provides caregivers with occasional relief from the stress and fatigue caused by long-term caregiving for older adults and people with disabilities. A caregiver can be a spouse, parent, child, relative or other person over the age of 18 who is responsible for providing unpaid care of an impaired person. A case manager will work closely with the individual to develop a plan of care that best meets their needs.

A co-pay, on a sliding fee scale, may be required for those who exceed the federal income guidelines.

Call the Union County Division on Aging today to discuss how the Respite Program can be of assistance to you!
