(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said

action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

(1) To notify the public agency compliance officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

(i) The contractor or subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Division. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Division, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Division.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for

employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Division an initial project workforce report (Form AA 201) electronically provided to the public agency by the Division, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Division of Public Contracts Equal Employment Opportunity Compliance as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Public Contracts Equal Employment Opportunity Compliance for conducting a compliance investigation pursuant to **Subchapter 10 of the Administrative Code (NJAC 17:27)**.

5. HOURLY LABOR RATES

Labor hours are shown in the proposal page for bid purposes only. We have attempted to accurately reflect a true picture of the approximate amount of labor hours that the County anticipates. The County does not guarantee any minimum number of hours and will pay only for the actual number of hours authorized and worked. **The labor charge should include all travel time. No additional travel charges will be honored.**

The State of New Jersey has decided that the Wage Determination for the field of service applicable to this bid falls under the title: Electrician. If and when the Wage Determination hourly rate is increased by the State, these specifications hereby declare that the wage of determination shall be considered a benchmark and if that benchmark is increased by the State, the contractor will have the ability to ask for an increase in the contracted hourly rate of this public bid in that exact same amount as the posted State increase and, if judged to be in the best interests of the County of Union, a new hourly contract rate will be allowed.

Although these pages include State required notation of the use of subcontractors due to the mandated use of Wage Determination, the service contractor will be solely capable of all specified serviced detailed herein.

It is the policy of the County of Union to avoid scheduling any work that exceeds 8 hours a day and to avoid scheduling work on Saturdays, Sundays and Holidays. Therefore, the successful bidder will be determined by the regular hourly rate bid. In the rare event that the County asks the service contractor to work after hours, the allowance of a time and a half rate charge and/or double-time rate charge will be in accordance with the Wage Determination of Electrician for Overtime.

The contractor shall be wholly responsible for any and all costs involved in the performance of the specified service, including, but not limited to: Travel expenses, cleanup materials, tools*, equipment*, and safety supplies.

*In the extraordinary event that a particular job needs a tool or piece of equipment outside the parameters of what a qualified contractor would have at his disposal, such as a crane or a specialized diagnostic tool, the contractor shall immediately notify the County employee in charge of the service. The County then may, according to its own best interest:

1. Rent or buy the necessary tool or equipment on quotation from a third party.
2. Instruct vendor to rent tool on the behalf of the County and pass along the charge AT COST to the County. The County shall pre-approve the rental as being of fair market value. No mark-up shall be allowed in this instance.

6. REQUESTS FOR REPAIR SERVICES

The service contractor shall have the capability of responding to a request for repair service within **two (2) hours** ON SITE, twenty-four (24) hours per day, seven (7) days per week including weekends and Holidays. Bidders with an office that is further than thirty (30) minutes traveling time from the County Courthouse Complex in Elizabeth shall submit a letter with their bid detailing how they propose to meet the required response time. Request for services affecting the jail, medical patient areas, powerhouse, and the safety of the public shall be regarded as priorities and shall be responded to accordingly. A 24 hour manned phone number shall be indicated on the appropriate bid form page. Three documented failures to comply shall be considered cause for termination of contract. Emergency service calls shall be defined as safety hazards that cannot wait regular scheduling. Contractor shall respond to regular service calls by scheduling work to occur during regular work hours and within 48 hours of receipt of County purchase order number. Service contractor must sign a log book or e-mail County representative for each visit to a County of Union site, and must verify the site visit with a County representative. Service contractor must provide telephone numbers and/or a 24-hour answering service for this purpose.

The County of Union representative or his designee will be county personnel who will have the authority to make service calls after the bid is awarded.

The County has the right to validate the work performed by the service contractor through the use of phone calls and/or site visits.

The County of Union has existing service contracts for various trades, such as electrician. It would be a requirement of the successful bidder of this contract that he could work seamlessly with the other County contractors and/or County personnel if a repair project contained additional aspects to it other than fire detection service.

All work shall be performed by experienced Siemens certified technicians in a safe and competent manner approved by the County and in compliance with the current local, state, federal and OSHA codes. The contractor must obtain all permits (if applicable) with the local authorities.

Quotes for any work shall include a cost breakdown submitted by the contractor as follows: labor rate, quantity of workers and their hours, intended use of apprentices or helpers, materials list, wholesale cost (with evidence of same) and mark up, at applicable contract rates. Each call shall generate a separate invoice detailing the labor charge and the parts/materials as outlined above. All invoices are required to include the proper purchase order number, which can be obtained by contacting the appropriate County representative responsible for requesting services.

7. FURNISHING REPAIR PARTS

The Contractor shall advise the County of any parts and/or materials required to perform the requested repairs or installation. The County shall furnish stock parts and/or materials required unless the Contractor is requested to furnish them. Where directed to furnish parts and/or material, the Contractor shall submit a cost estimate to the County for budgetary purposes.

The service contractor must be an authorized Siemens dealer in order to supply the County with Siemens repair parts at the lowest trade price available to an authorized dealer. In order to be reimbursed for Siemens repair parts, the service contractor must supply a Siemens invoice for the parts or a dated page from the current Siemens trade price listing indicating the current trade prices for Siemens repair parts.

The materials and supplies called for herein shall be the best of their grade and types, prepared according to the best available standards or accepted formulas, thoroughly tested and subjected to rigid examinations and standardization. Items not meeting these requirements shall be replaced at no cost to the County upon due notice of deficiency.

Materials, equipment and installation shall comply with all current rules and regulations of all applicable Federal, State, County and Local Laws, ordinances and regulations. All work shall be executed in a competent manner and shall present a neat and professional appearance when completed.

8. WARRANTY

Repair parts shall be unconditionally guaranteed for a minimum of one (1) year beginning after the acceptance by the County, including all labor, materials, travel time and freight. Manufacturer's warranty shall apply if greater.

9. PAYMENT FOR REPAIR PARTS

The County estimates spending \$200,000 for parts and materials (excluding mark-up) as part of the service work throughout the term of the contract. Parts/Materials Prices: All materials shall be invoiced at actual wholesale cost plus a percentage (%) markup. Copies of the contractor's own purchase invoices reflecting actual costs shall

accompany each invoice to the County. The contractor shall maintain an adequate inventory of applicable supplies, spare parts and replacement equipment within the service vehicles or at contractors place of business, in order that emergency repairs can be made to the using agency's equipment at once with a minimum of shut-down time.

10. INSTRUCTIONS FOR 1C ON BID FORM PAGE

For the purpose of this Bid: assume repair parts and materials estimate of \$200,000. Calculate percentage of mark up charges on wholesale cost of repair parts by multiplying \$200,000 by your standard markup %, add that product to \$200,000 and put that sum on the appropriate line of the bid form page.

e.g. \$1,000 x 1% = \$10. Adding that to \$1,000 would give you a sum of \$1,010.

11. TERMS

Contract period shall be twenty-four (24) consecutive months upon the signing of the contract with the provision for one (1) twenty-four (24) month extension subject to the following limitations: the extension contract shall be awarded by resolution of the governing body (within 60 days prior to the expiration date) upon a finding by the governing body that the services are being performed in an effective and efficient manner.

Payment to Vendor is to be made within forty-five (45) days after receipt of Vendor's invoice and a signed County voucher attesting to the delivery of goods and services by some officer or duly designated employee of the using County entity and after approval of the appropriate Division/Department head. The Vendor shall prepare invoices and shall submit them to the office/designated employee of the using County entity.

It is the policy of the County of Union to avoid scheduling any work that exceeds 8 hours a day and to avoid scheduling work on Saturdays, Sundays and Holidays. Therefore, the formula used to award the contract will utilize the Rate per Hour-Regular Time price only.

In the rare event that the County asks the service contractor to work after regular hours, the allowance of time and a half and double-time will be accordance to the Wage Determination of Electricians.

The County reserves the right to terminate this agreement with written notice to the contractor thirty (30) days prior to such action.

PLEASE NOTE THAT THE ENSUING CONTRACT IS INTENDED TO BE OPEN END CONTRACT AS ALLOWED UNDER N.J.A.C. 5:30 ET SEQ. AND, IN ACCORDANCE WITH THE RULES, THE MINIMUM NUMBER SET ON THE BID SHALL BE ZERO (0) HOURS AND THE MAXIMUM SHALL BE 1200 HOURS AND THE PROVISION FOR PARTS SHALL BE SET AS ZERO (0) DOLLARS AND THE MAXIMUM SHALL BE 200,000.00 DOLLARS.

12. ESTIMATE OF WORK HOURS

THE COUNTY DOES NOT AND WILL NOT WARRANT OR GUARANTEE THE AMOUNT OF WORK HOURS TO BE SUPPLIED / REQUIRED IN ANY GIVEN DAY, WEEK, MONTH OR YEAR OR IN THE AGGREGATE PURSUANT TO ANY CONTRACTUAL AGREEMENT AWARDED UNDER THESE BID SPECIFICATIONS. NOTHING CONTAINED IN ANY OF THE BID DOCUMENTS SHALL BE CONSTRUED TO GUARANTEE OR WARRANT ANY AMOUNT OF WORK HOURS. THE WORK HOURS SET FORTH HEREIN CONSTITUTE EITHER HISTORIC INFORMATION OR ESTIMATES OF FUTURE NEEDS AND MAY NOT BE INDICATIVE OF THE ACTUAL WORK HOURS TO BE EXPERIENCED IN TH FUTURE.

NOTHING HEREIN SHALL ENTITLE THE SUCCESSFUL BIDDER TO ANY CLAIM TO AN HOURLY PRICE INCREASE FOR LOST PROFITS OR FOR ANY OTHER COMPENSATION WHATSOEVER IN THE EVENT THAT THE ACTUAL WORK HOURS SUPPLIED/ REQUIRED UNDER THIS AGREEMENT ARE MORE OR LESS THAN HISTORICAL WORK HOURS OR ANY PROJECTION OF FUTURE WORK HOURS THAT MAY BE CONTAINED HEREIN.
