(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

(1) To notify the public agency compliance officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

(i) The contractor or subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Division. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Division, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Division.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor

or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Division an initial project workforce report (Form AA 201) electronically provided to the public agency by the Division, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Division of Public Contracts Equal Employment Opportunity Compliance as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Public Contracts Equal Employment Opportunity Compliance for conducting a compliance investigation pursuant to **Subchapter 10 of the Administrative Code (NJAC 17:27)**.

BUSINESS REGISTRATION CERTIFICATE

New Mandatory Requirement – Effective 1/18/2010

The recently enacted **P.L. 2009, c.315**, requires that effective January 18, 2010; a contracting agency must receive proof of the Proposer's business registration prior to the award of a contract. However, the proof must show that the Proposer was in fact registered with the State of New Jersey Department of the Treasury, Division of Revenue and obtained the business registration prior to the receipt of bids.

If subcontractors are named on the bid, proof of the business registration for each must be provided prior to the award of a contract. Similarly to the Proposer, the proof must show that each subcontractor was registered with the State of New Jersey Department of the treasury, Division of Revenue and obtained the business registration prior to the receipt of bids.

Proof of business registration shall be:

- A copy of a Business Registration Certificate issued by the Department of the Treasury, Division of Revenue; or
- A copy of the web printed version provided by the NJ Division of Revenue

Register online at www.nj.gov/treasury/revenue/busregcert.shtml. Click the "online" link and then select "Register for Tax and Employer Purposes or call the Division at 609-292-1730.

Note: A N.J. Certificate of Authority is not acceptable.

FAILURE to submit proof of registration of the Proposer or any subcontractor named on the bid is considered a **MANDATORY REJECTION** of bids (A **NON-WAIVABLE DEFECT**). This covers construction work as well as non-construction bids.

IN ADDITION:

The contractor shall provide written notice to all **subcontractors and suppliers** not specifically named on the bid of the responsibility to submit proof of business registration to the contractor. The requirement of proof of business registration extends down through all levels (tiers) of the project.

Before final payment on the contract is made by the contracting agency, the contractor shall submit an accurate list and the proof of business registration of each subcontractor or supplier used in the fulfillment of the contract, or shall attest that no subcontractors were used.

For the term of the contract, the contractor and each of its affiliates and a subcontractor and each of its affiliates [N.J.S.A. 52:32-44(g)(3)] shall collect and remit to the Director, New Jersey Division of Taxation, the use tax due pursuant to the Sales and Use Tax Act on all sales of tangible personal property delivered into this State, regardless of whether the tangible personal property is intended for a contract with a contracting agency.

A business organization that fails to provide a copy of a business registration as required pursuant to section 1 of P.L.2001,c.134 (C.52:32-44 et al.) or subsection e. or f. of section 92 of P.L.1977,c.110 (C.5:12-92), or that provides false business registration information under the requirements of either of those sections, shall be liable for a penalty of \$25 for each day of violation, not to exceed \$50,000 for each business registration copy not properly provided under a contract with a contracting agency.

SPECIFICATIONS

SCOPE OF SERVICES:

The County of Union seeks the services of a qualified firm to implement an aquatic management program designed to achieve and maintain control of nuisance macrophytes and algae within 29 lakes/ponds/lagoons in the Union County Park System.

Control of submergent, emergent and floating vegetation, and algae (both filamentous and unicellular), is addressed on a per treatment basis, since the density, distribution and persistence of these plants can vary widely from year to year, as water chemistry, weather, and the makeup of the aquatic plant community change.

The surface area coverage of the nuisance aquatic plants or algal blooms will vary among the various water bodies. The intent of this program is to prevent or eliminate algal blooms and to retard or eliminate macrophyte growth back to a percentage of water surface area coverage that still provides a balanced ecosystem, supporting fish, amphibians, reptiles and invertebrates.

The list of macrophytes for which the County has concern includes, but is not limited to:

- Common duckweed (*Lemna minor*)
- Common elodea (*Elodea Canadensis*)
- Common reed (*Phragmites australis*)
- Coontail (*Ceratophyllum demersum*)
- Curly-leafed pondweed (*Potamogeton crispus*)
- Eurasian watermilfoil (*Myriophyllum spicatum*)
- Fanwort (*Cabomba carolinia*)
- Floating primrose willow (*Ludwigia peploides*)
- Naiad (*Najas minor*)
- Parrot feather (*Myriophyllum aquaticum*)
- Reed canarygrass (*Phalaris arundinacea*)
- Sago pondweed (*Stuckenia pectinata*)
- Spatterdock/cow lily (*Nuphar advena*)
- Starry stonewort (*Nitellopsis obtuse*)
- Water chestnut (*Trapa natans*)
- Water hyacinth (*Eichhornia crassipes*)
- Water lettuce (*Pistia stratiotes*)
- Watermeal (*Wolffia arrhiza*)
- Water primrose (*Ludwigia spp*)
- White water-lily (*Nymphaea alba*)
- Yellow flag iris (*Iris pseudacorus*)

Upon award of contract, the aquatic management contractor should conduct a survey of the 29 subject waterbodies to familiarize himself with the following at each location:

- The size and shape of the lake, pond or lagoon;
- The source of water inflow to the waterbody;
- The composition and surface area coverage of aquatic vegetation;
- The suitability of access points; and
- Surrounding land uses.

This contract will be administered for the County of Union by Daniel J. Bernier, Director, Division of Park Environmental Services (hereinafter referred to as Division Director). Treatment at any specific lake/pond/lagoon will only be conducted upon request and written e-mail authorization from the Division Director or his designee.

However, because of the large number of lakes/ponds/lagoons involved, recommendations for treatment from the aquatic management contractor are encouraged and welcome, especially if the contractor sees trends in the weather, especially temperature and rainfall, which signal the likelihood of weed growth or algal bloom.

At least 24 hours prior to conducting any treatment, the contractor shall advise the Division Director by e-mail of his treatment schedule. The Division Director may elect to have a County staff member present during some or all treatments.

Within 24 hours of completing any treatment, the contractor shall provide to the Division Director or his designee a Daily Activity Report that indicates the following:

- The lake/pond/lagoon that was treated;
- An estimate of the percentage of surface area covered by vegetation and the predominant species, prior to treatment;
- The date and time of treatment;
- The herbicide that was applied and the concentration at which it was applied;
- The plant species that was (were) targeted by the treatment;
- The percentage of lake/pond/lagoon surface area that was treated; and
- Recommendations, if any, for subsequent treatments.

Reports on the treatment of multiple lakes/ponds/lagoons on any one date may be combined into one document. The report(s) may be submitted handwritten on a hard-copy or by e-mail. Requests for payment will be verified against these treatment reports.

MATERIALS:

The aquatic management contractor shall determine the appropriate herbicide or algaecide to be used at each location in order to achieve the control desired within the criteria established by these specifications. The contractor shall determine the concentration of chemical to be used and the percentage of waterbody to be treated, consistent with the instructions provided by the manufacturer of the product, current industry standards, and any NJDEP permit restrictions. Use of a particular product should not result in a restriction on fishing within that waterbody following treatment.

Herbicides to be used in this program could include, but is not limited to, Diquat, Sonar, or Rodeo. Algaecides which might be used include, but is not limited to, K-Tea, Cutrine, Copper Sulfate, or Aquazine.

LOCATIONS:

The Bidder is responsible for thoroughly familiarizing himself with the locations specified. The following list provides historical data on the size of each waterbody and the nuisance macrophytes for which each lake/pond/lagoon has often been treated. This list is not intended to be a complete list of all macrophytes that have been or could be present in any particular waterbody.
