PROJECT REFERENCE # **32159**

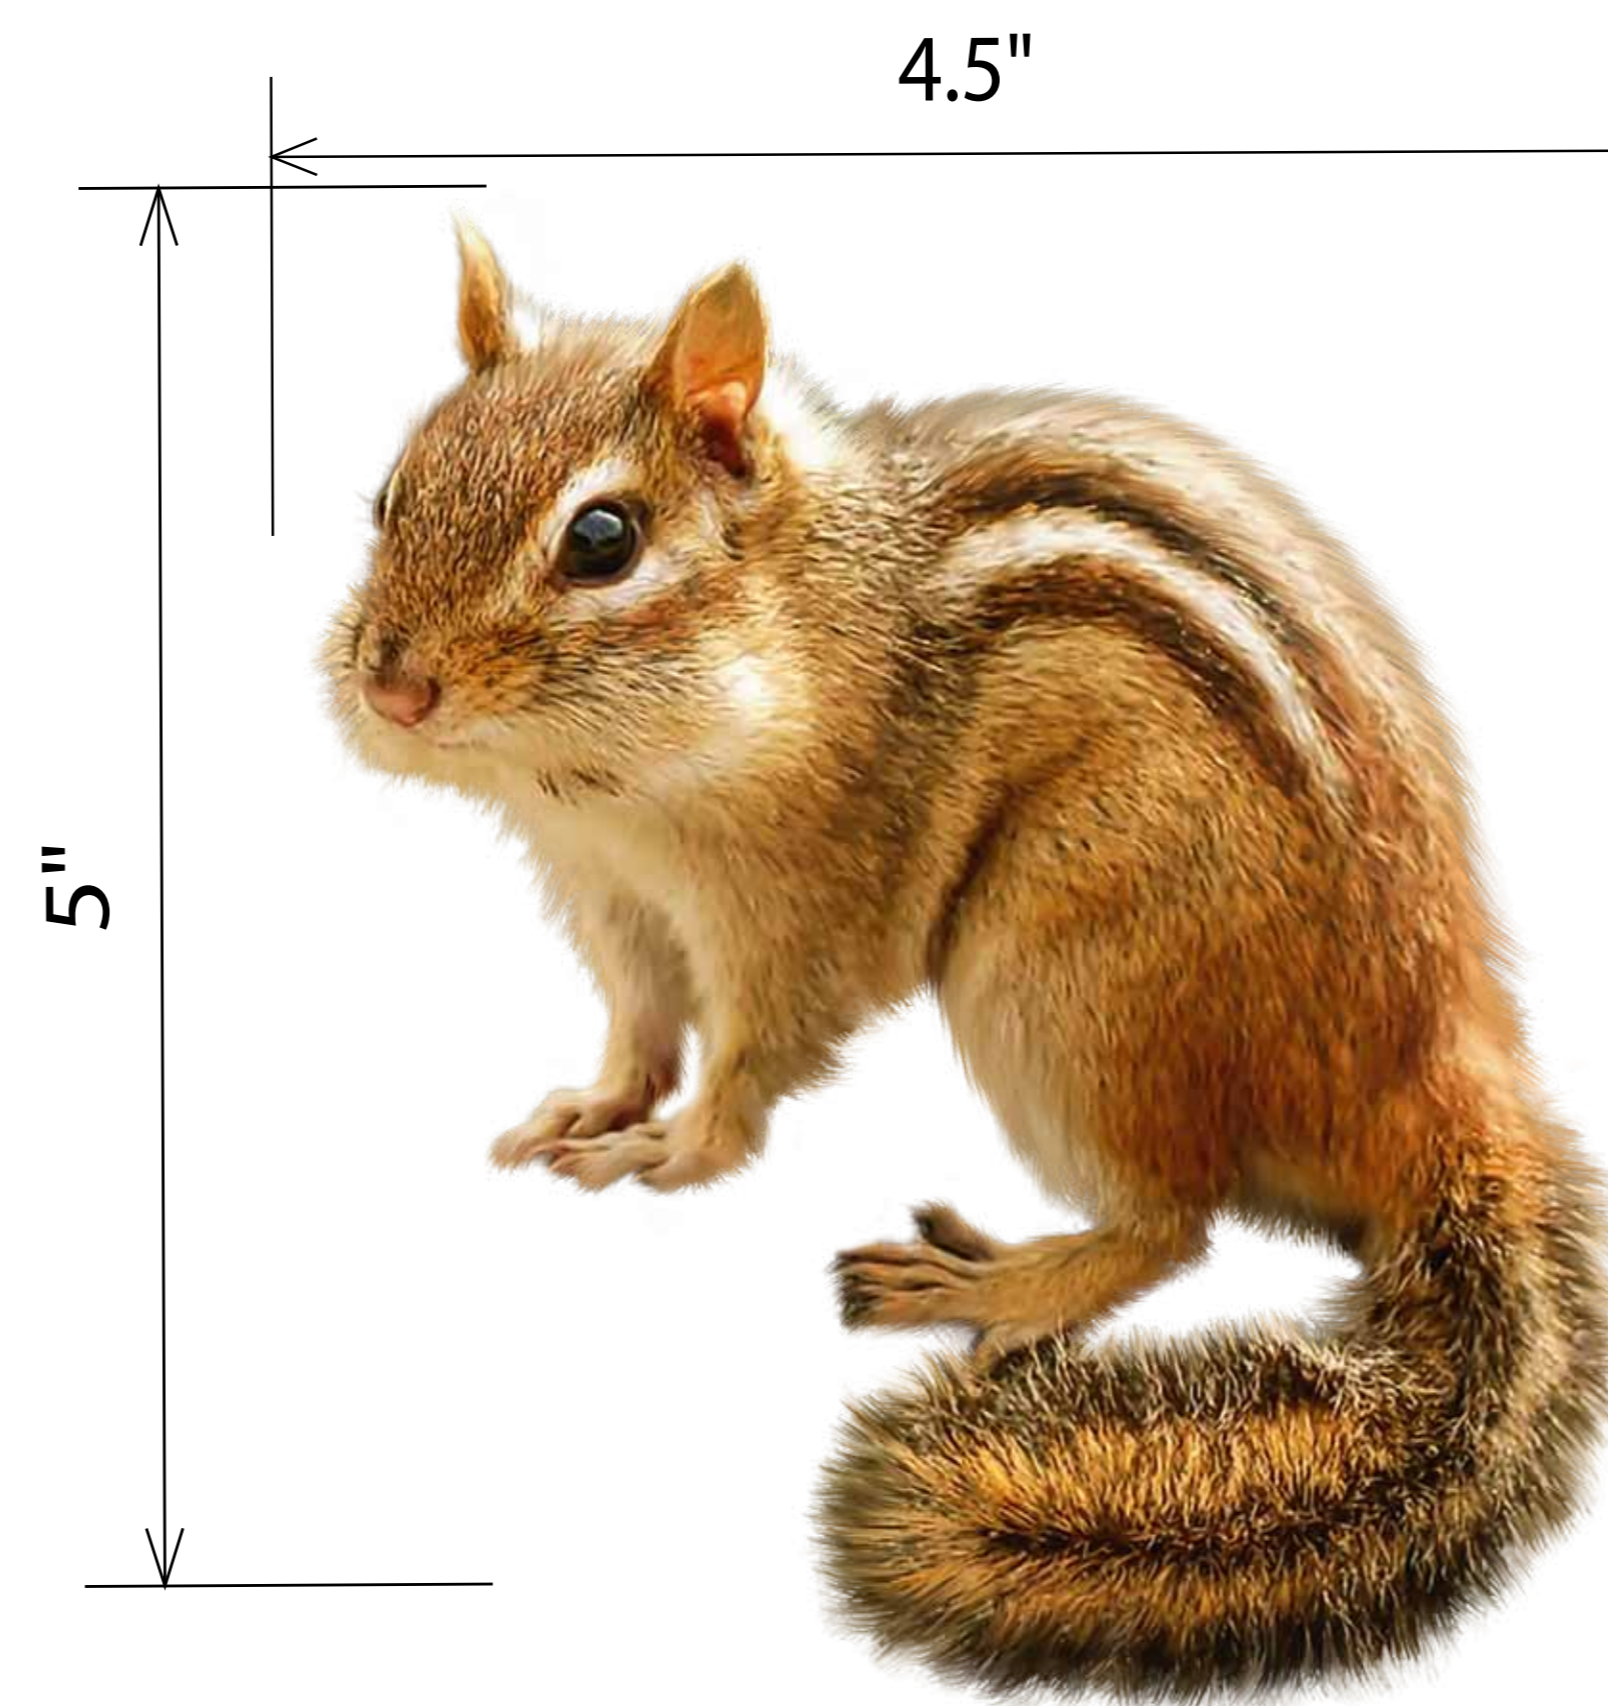

Job Name: CME Assoc. Watchung Reserve	Original Design Date: 10/18/17	Block: ###	Lot: ###
Address: 452 New Providence Road	1st Set Revisions (included): 1/15/18		
City, State: Mountainside, NJ	Add'l Revisions (may accrue charges): 4/04/18	Design Scale (Photo): 1000%	
Designer: Teri Olsen		See PDF (N/A) For Install Detail	

# Eastern Chipmunk

*Tamias striatus*

Listen for a high-pitched "chip chip chip" call in the woods; it is likely you are hearing an alarmed chipmunk. They eat seeds, fruits, nuts, mushrooms, insects, worms and bird eggs. These small mammals transport food in pouches in their cheeks. Chipmunks construct underground burrows with extensive tunnel systems, often with several entrances.

**DESCRIPTION:**  
• Design and produce 1/2" thick FOSSIL High Pressure Laminate with Braille and raised cut out icons (such as Maple leaf and fruit).  
Post not included.
