If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling
procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

1. To notify the public agency compliance officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

2. To notify any minority and women workers who have been listed with it as awaiting available vacancies;

3. Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

4. To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

5. If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

6. To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

   (i) The contractor or subcontractor shall interview the referred minority or women worker.

   (ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Division. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

   (iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Division, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

   (iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Division.

7. To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women
consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Division an initial project workforce report (Form AA 201) electronically provided to the public agency by the Division, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Division of Public Contracts Equal Employment Opportunity Compliance as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Public Contracts Equal Employment Opportunity Compliance for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (N.J.A.C. 17:27).

1. TERMS

The service contractor will provide a two-tiered service for scheduled maintenance and any non-covered repair service for the Elevators of Union County for a period of twenty-four (24) consecutive months. The award allows for one (1) optional twenty-four (24) month extension.

The State of New Jersey has decided that the Wage Determination for the field of service applicable to this bid falls under the title: Elevator Modernization & Repair.

The County of Union has existing service contracts for various trades, such as electrical. It would be a requirement of the successful bidder of this contract that he could work seamlessly with the other County contractors and/or County personnel if a repair project contained additional aspects to it other than specified service of these specifications.

Although these pages include State required notation of the use of subcontractors due to the mandated use of Wage Determination, the service contractor will be solely capable of all specified service detailed herein.

Quotes for any non-covered repair service shall include a cost breakdown submitted by the contractor as follows: labor rate, quantity of workers and their hours, intended use of apprentices or helpers, materials list, wholesale cost (with evidence of same) and mark up, at applicable contract rates. Each call shall generate a separate invoice detailing the labor charge and the parts/materials as outlined above. All invoices are required to include the proper purchase order number, which can be obtained by contacting the appropriate department requesting services.

2. REQUEST FOR SERVICES

Due to the urgency of emergency service to the courthouses, jail, and detention center of the County, the Contractor will have the capability of responding to a request for a passenger entrapment within one-half (1/2) hour and an out-of-service unit within one (1) hour. The indicated response times applies to Regular Time, Overtime, Saturdays, Sundays and Holidays. Bidders with an office that is further than thirty (30) minutes traveling time from the County Courthouse Complex in Elizabeth will provide proof of distance by providing a print out from Google maps or MapQuest from vendors business address to: 2 Broad Street, Elizabeth NJ 07201. Emergency services will be provided twenty-four (24) hours per day, seven (7) days per week including weekends and holidays. Request for services affecting the courthouses, jail, detention center, and the safety of the general public will be regarded as priorities and will be responded to accordingly. A 24 hour manned phone number will be indicated on the appropriate bid form page. Three documented failures to comply will be considered cause for termination of contract. Emergency service calls will be defined as safety hazards that cannot wait regular scheduling. Contractor will respond to regular service calls by scheduling work to occur during regular work hours and within 48 hours of receipt of County purchase order number. Service contractor shall sign a log book for each visit to a County of Union site, and will verify the site visit with a County representative. Requests for services at any County building or facility will only be made by the following persons or an authorized representative:

Director of the Division of Facilities Management: (908) 527-4240 or his designee.

3. PAYMENT FOR SERVICES

Payment for services of the specified ELEVATOR SYSTEMS shall be: Payment to Vendor is to be made within forty-five (45) days after the receipt of Vendor’s invoice and a signed County voucher attesting to the delivery of the goods and services by some officer or duly designated employee of the using County entity and after approval of the appropriate Department head. The Vendor shall prepare invoices and shall submit them to the office/designated employee of the using entity. Any requested repairs will be paid at the contracted hourly rates for the time on the job site only. No travel time should be included. Billing must be accompanied with an itemized list of any repair parts that have been specifically
ordered and used to complete the work with the supplier's invoice clearly marked that the prices reflect Contractor Wholesale Pricing, location of the site, and work that was performed. The vendor must include service reports with signed invoices.

The vendor will not provide any goods and/or services without a valid and current purchase order from the County unit.

Payment for Emergency Call-back services within the parameters of the specified covered repairs shall be included in the fixed monthly lump sum price for services rendered twenty-four (24) hours per day, seven (7) days per week, without extra charge to the Purchaser / Owner. Payment of Emergency Call-back services which include non-covered repairs shall be invoiced separately pursuant to contract specifications.

4. SUPPLY & PAYMENT FOR NON-COVERED REPAIR PARTS

The service contractor shall advise the County of any parts required to perform the necessary installation or repair. The County shall furnish all parts required unless the Contractor is requested to furnish them. Where directed to furnish parts, the Contractor shall estimate the cost for the parts to be furnished and provide that estimate to the County.

The County estimates spending $30,000 for non-covered parts (excluding mark-up) as part of the service work throughout the 24 month term of the contract. Parts Prices: All parts shall be invoiced at actual wholesale cost plus a percentage (%) mark-up. Copies of the contractor's own purchase invoices reflecting actual costs shall accompany each invoice to the County. The contractor shall maintain an adequate inventory of applicable supplies, spare parts and replacement equipment within each location, service vans, or at contractor's place of business, in order that emergency repairs can be made to the using agency's equipment at once with a minimum of shut-down time.

Note: If any parts are supplied from the stockpile of the contractor and no invoices can be provided, any quotes with said parts listed shall be marked appropriately and the fair market value of the parts shall be attested to by the County before purchase.
Further, it shall be up to the discretion of the County as to whether projects and/or equipment shall be purchased through the service vendor obtained through this public bid, or state contract, or by quotation or separate public bid.

5. WAGE DETERMINATION, SUBCONTRACTING, NON-COVERED REPAIRS

The service contractor shall also be responsible for repairs that are not covered under the service contract for each elevator. The determination as to whether a repair is covered under the service contract must be agreed upon by the service contractor and the Division of Facilities Management before any work can proceed.

The State of New Jersey has decided that the Wage Determination for the field of service applicable to this bid falls under the title: Elevator Modernization and Repair. If and when the Wage Determination hourly rate is increased by the State, these specifications hereby declare that the wage of determination shall be considered a benchmark and if that benchmark is increased by the State, the contractor will have the ability to ask for an increase in the contracted hourly rate of this public bid in that exact same amount as the posted State increase and, if judged to be in the best interests of the County of Union, a new hourly contract rate will be allowed.

The County of Union has existing service contracts for various trades, such as electrical. It would be a requirement of the successful bidder of this contract that he could work seamlessly with the other County contractors and/or County personnel if a repair project contained additional aspects to it other than specified service of these specifications.

Although these pages include State required notation of the use of subcontractors due to the mandated use of Wage Determination, the service contractor will be solely capable of all specified service detailed herein, therefore, no subcontractors or subcontracting of work specified herein are permitted.
In the event of non-covered repairs that are billed hourly outside of the service contract, the following guidelines are mandatory:

- It is the policy of the County of Union to avoid scheduling any work that exceeds 8 hours a day and to avoid scheduling work on Saturdays, Sundays and Holidays. Therefore, the regular hourly rate should be used on the Bid Form Pages.

- In the rare event that the County asks the service contractor to work after hours, the allowance of a time and a half rate charge and/or double-time rate charge will be in accordance with the Wage Determination of Elevator Modernization and Repair for Overtime.

6. INSTRUCTIONS FOR 1.C ON BID FORM PAGE

For the purpose of this Bid: assume repair parts and materials estimate of $30,000.00. Calculate percentage of mark up charges on wholesale cost of repair parts by multiplying $30,000.00 by your standard markup %, and adding that product to $30,000 and then put that sum on the appropriate line of the bid form page.

e.g. $1,000 X 1% = $10. Adding that to $1,000 would give you a sum of $1,010

7. OPEN ENDED CONTRACT

PLEASE NOTE THAT THE ENSUING CONTRACT IS INTENDED TO BE OPEN END CONTRACT AS ALLOWED UNDER N.J.A.C. 5:30 ET SEQ. AND, IN ACCORDANCE WITH THE RULES, THE MINIMUM NUMBER SET ON THE BID SHALL BE ZERO (0) HOURS AND THE MAXIMUM SHALL BE 300 HOURS FOR JOURNEYMAN AND 100 HOURS FOR HELPER AND THE MINIMUM FOR MATERIAL AND PARTS PROVISION SHALL BE ZERO (0) DOLLARS AND NOT EXCEED THE SUB TOTAL ON LINE 1C OF THE BID FORM PAGE.

THE COUNTY DOES NOT AND WILL NOT WARRANT OR GUARANTEE THE AMOUNT OF WORK HOURS TO BE SUPPLIED / REQUIRED IN ANY GIVEN DAY, WEEK, MONTH OR YEAR OR IN THE AGGREGATE PURSUANT TO ANY CONTRACTUAL AGREEMENT AWARDED UNDER THESE BID SPECIFICATIONS. NOTHING CONTAINED IN ANY OF THE BID DOCUMENTS SHALL BE CONSTRUED TO GUARANTEE OR WARRANT ANY AMOUNT OF WORK HOURS. THE WORK HOURS SET FORTH HEREBIN CONSTITUTE EITHER HISTORIC INFORMATION OR ESTIMATES OF FUTURE NEEDS AND MAY NOT BE INDICATIVE OF THE ACTUAL WORK HOURS TO BE EXPERIENCED IN THE FUTURE.
