SPECIFICATIONS

1) Heated Food Tray Transportation Cart

Jones-Zylon JZH-6UBT-RH

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Heated Food Tray Transportation Cart with removable heater allowing for regular/routine power washing of all surfaces

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Packed one (1) each

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Unibody construction with all edges turned in and welded

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Stainless steel construction-external surfaces no less than 18 gauge (ga), interior walls no less than 20ga, base frame no less than 16ga with reinforced cross channels, caster mounting pads no less than 10ga, hinges no less than 12ga with reinforced stitch weld on edges and corners, locking transport latch no less than 12ga

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Gasketless single door with magnetic closure and with recessed pull handle, no less than 2" thick high density fiberglass insulation in top, bottom, sides, and doors, tamper resistant for correctional institution use

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

NAME OF BIDDER The JonesZylon Company

Multi-terrain caster no less than 6" (at least two of which are swivel type)

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Digital thermometer (photo/solar cell preferred)

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Full perimeter bottom bumper - non-marking reinforced carriage bolts; 4 sided top tubular rail

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Removable pan slide configuration capable of accommodating 18" x 26" sheet pans (7) and/or 12" x 20" x 4" steam pans (14)

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Each unit to include at least 1 each removable snap-in heater that can be removed without tools and secured via locking latch compatible with institution pad locks, electronic controller, box mounted cord wind bracket, steel strain relief, 120v/15amp

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

UL530L and NSF certified, no less than 1 year warranty on all parts and labor.

Capacity of each individual cart should be no less than ninety (90) Jones-Zylon "Smart Tray" or equivalent (specified below).

EXACT COMPLIANCE YES _____ NO*

*DEVIATIONS _____

Include any and all unique tools required to perform minor maintenance.

EXACT COMPLIANCE YES _____ NO*

CONGRATULATIONS...

...and thank you for purchasing a JonesZylon "Mission Ready" removable heater cabinet. Your unit has been designed and manufactured under rigid controls to assure you the most efficient service. It is a full time unit, and may be used continuously.

Please take a moment to read through this booklet of important information pertaining to your cabinet. By following a routine of proper use and care described on the following pages, your cabinet will last for many years.

Table of Contents

INSTALATION	3
OPERATING THE CABINET.....	4
CONTROLS	4
CLEANING	5
TROUBLE SHOOTING	6
WARRANTY AND TECHNICAL SUPPORT.....	7
MAINTENANCE PARTS	7
NOTES	8

INSTALLATION

SERIAL AND MODEL NUMBER

Both, the cabinet and the heat box have a serial number and model number. The cabinet numbers are located on the nameplate adhered toward the top of the back of the cabinet. The heat box numbers are found on the nameplate affixed on the heat box near the electrical cord portal. Please record these numbers. When ordering parts and/or service, you will need to provide this information. The voltage and amperage of the heat box are also stamped on its nameplate.

UNPACKING

After uncrating your cabinet, remove all tape and padding which held all doors, shelves, racks, cord, etc., in place during shipment.

INSPECTION FOR SHIPPING DAMAGE

IMPORTANT! Check for shipping damage before the carrier leaves your facility. If damage is discovered or a shortage is found, note this on the bill of lading (all copies) prior to signing. Save all packaging material.

Provide all information and documentation on shipping damage to JonesZylon: jzsales@joneszylon.com phone 740.545.6341 fax 740.545.6671 so that JonesZylon can file the claim with the carrier.

ELECTRICAL REQUIREMENTS AND GROUNDING

Standard models operate on 110/120 volt, 60 Hz, 1 ph, A.C. (unless ordered otherwise), and are equipped with a three prong grounding cord plug for your protection against possible shock hazards. Be sure to plug only into a properly grounded three prong wall receptacle. If you have any questions with regard to adequate wiring or grounding in your building, a qualified electrician should be contacted before using your cabinet.

The amperage of your cabinet is stamped on the name plate attached to the unit.

DO NOT, UNDER ANY CIRCUMSTANCES, CUT OR REMOVE THE GROUNDING PRONG FROM THE CORD PLUG.

WARNING: ONLY A QUALIFIED ELECTRICIAN SHOULD ATTEMPT TO REPAIR OR REPLACE ELECTRICAL COMPONENTS OR WIRING.

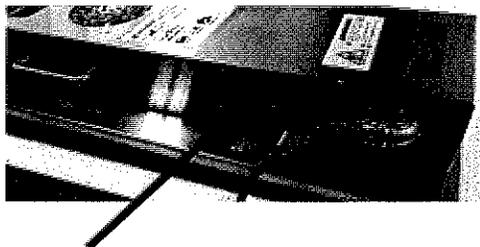

BE SURE THAT THE UNIT IS UNPLUGGED FROM ELECTRICAL SOURCE BEFORE REMOVING CONTROL PANEL.

OPERATING THE CABINET

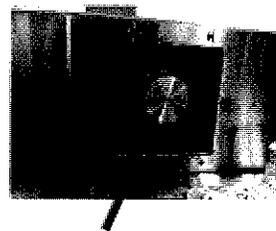

1. **TEMPERING:** 60-30 minutes prior to loading the cabinet with the trays or bulk pans, plug the cart into a 120 volt outlet and turn the rocker switch located on the heatbox to the "on" position. Allow the cart to run while the doors remain closed. The cabinet will reach its factory preset temp of 165 degrees (+/- 10°).
2. **LOADING:** Load meal trays or hotel pans quickly while it is running, keeping the doors closed as much as possible. After loading is complete, do not open doors again until you are ready to serve.
3. **TRANSPORTING FOODS:** Your cabinet is equipped with a positive transportation latch to assure safety during transportation. After loading the cabinet, keep it plugged in with the door closed and wait 15 - 20 minutes before moving it, to allow it to reach maximum holding temperature. Then wheel to serving area, and plug the cabinet into an electrical outlet at the serving location (if available), so that the heating element will re-activate and automatically hold at the pre-selected temperature. Keep the door closed as much as possible.
4. **RETURNING:** If used for meal delivery, at the completion of the meal service, switch off and unplug the cart, restack the dirty trays within the cart and take the cart and trays to the ware washing area.

CONTROLS

The factory pre-set temperature of 165°F can be adjusted

Remove the one tamper resistant fastener
Remove access panel

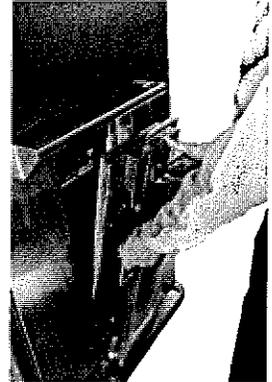

Adjust dial to desired
temperature setting

CLEANING

The "Mission Ready" line of equipment is unique in that all electrical parts are contained in the quickly removable heat box.

To clean,

1. Remove the padlock from the heat box and slide the two latches to the open position. (for slam latch model, use the provided key to unlock the hasp and lift)
2. Tilt the heat box outward and lift out
3. Place the heat box in a safe location away from water
4. **Feel free to dump a bucket of water or hose out the cabinet without concern of damaging electronics with water**

Be sure to use a mild soapy solution with the water. If so equipped, interior pan or tray slide assemblies are removable for easy cleaning. A stainless steel cleaner/polish is recommended for the exterior to maintain a "like-new" appearance. Follow the instructions on the cleaner container.

NEVER USE ABRASIVES, ACIDS, OR STRONG CLEANERS.

To clean the heat box, simply wipe the exterior, as needed, with a damp cloth or sponge and a mild soapy solution. Do not flood or allow electrical parts to become wet.

YES!

Use these products

TROUBLE SHOOTING

Check this list first before you call for service...

TEMP TOO HOT	<p>1A] Adjustable thermostat set too high 1B] Thermostat needs re-calibrating**</p>	<p>1A] Set thermostat at a lower temperature (no lower than 140°F). 1B] Loosen screw in thermostat knob and remove knob. Adjust set screw in hollow stem with small blade screwdriver by turning CLOCK-WISE. 1/4 turn lowers temperature approximately 10°F. DO NOT REMOVE SET SCREW.</p>
TEMP NOT HOT ENOUGH	<p>2A] Opening door unnecessarily 2B] Thermostat set too low 2C] Cord plug pulled out from outlet 2D] Fuse blown / no power to outlet 2E] Thermostat out of calibration**</p>	<p>2A] Keep door closed and latched shut as much as possible. 2B] Set thermostat at a higher temperature. 2C] Re-plug cord into proper outlet. 2D] Have a qualified electrician check power and fuse box. 2E] Loosen set screw in thermostat knob and remove knob. Adjust set screw in hollow stem with small blade screwdriver by turning COUNTER-CLOCKWISE. 1/4 turn raises temperature approximately 10°F. DO NOT REMOVE SET SCREW.</p>
NO HEAT AT ALL	<p>3A] Cabinet not plugged into outlet 3B] Thermostat knob at "OFF" 3C] Rocker switch at "OFF" position 3D] Fuse Blown - no power to outlet 3E] Thermostat needs replacing 3F] Heating element burned out*</p>	<p>3A] Plug cabinet into properly grounded electrical outlet. 3B] Adjust thermostat knob to temperature setting required. 3C] Turn switch to "ON" position. 3D] Have a qualified electrician check power to fuse box. 3E] Unplug cabinet from electrical source. Loosen set screw in thermostat knob and remove knob. Remove control panel, disconnect wires from terminals on thermostat, and remove 2 screws holding thermostat to control panel. Replace thermostat with new one, and re-install control panel and thermostat knob. 3F] Unplug cart from electrical source. Remove screws holding protective plate in place. Locate element disconnect wires and remove nuts holding it in place. Replace element with new one. Install nuts on element, reconnect wires and replace protective plate.</p>

** NOTE: CALIBRATION IS EXCLUDED FROM JONES ZYLON WARRANTY. Thermostats on all units are calibrated at the factory prior to shipping. Due to conditions in transit, beyond our control, occasionally units will need to be re-calibrated prior to use. This is a simple procedure for which instructions are given above (1B, 2E).

*Heating element will either function or not function. Only a slight warmth indicates a problem with the thermostat, not the element.

WARRANTY AND TECHNICAL SUPPORT

This equipment is warranted against factory defects for one year parts and labor. Service issues should be directed to:

The JonesZylon Company
 305 N. Center Street
 West Lafayette OH 43845
 Tel. 800.848.8160 Fax 877.632.6344
 jzsales@joneszylon.com

PRTS-4000	28

<i>Non-insul stacking</i>	
JZ Smart tray	90
Rock	80
X-tray	60
PPST-28 (w/ lid)	52

COMPONENTS:

Doors

- Cabinet-mounted single door, opens 270°
- Three heavy-duty 12-gauge stainless steel hinges
- Magnetic closure, gasketless

Display

- Solar-powered digital thermometer on right side protected with Lexan cover

Insulation

- Fully insulated in top, bottom, and sides with 1" thick high-density fiberglass

Racks

- Removable universal racks for steam pans or sheet pans (optional)

Handles

- Two handles mounted to heater assembly
- Four-sided tubular top rail

Casters

- Four 6" casters mounted to ¼" plates
- Multi-terrain quiet ride (2 swivel w/ brake, 2 rigid)

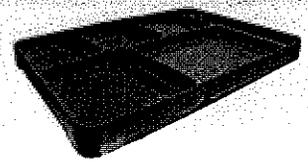

Bumpers

- Full perimeter non-marking vinyl bottom bumper

Heavy Duty Corrections package

- Extra-long heavy duty 12 gauge locking hasp
- Welded hinges, welded corners
- Lag bolts to retain nylon bumper from pulling out

smart trays (Self-stacking Tray)

Two Material Choices

MATERIAL: Copolymer

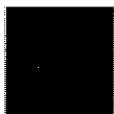

- Economical
- Break, chip, and crack resistant
- Can withstand temperatures from 0 to 212 degrees Fahrenheit
- Reusable / Recyclable
- Dishwasher safe / Microwave safe

MATERIAL: Max-Flex Blend

- Proprietary polymer formulation
- Too soft to easily fashion into a weapon. Material will tear instead of break
- Optimized durability. Stiff enough to resist wear in normal use
- Withstands temperatures from 0 to 212 degrees Fahrenheit
- Significantly cheaper and more earth-friendly than silicon
- Reusable / Recyclable
- Dishwasher safe / Microwave safe

COLORS:

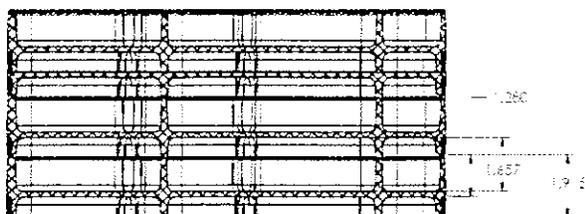

BRICK

CHOCOLATE

CASE PACK: 12 trays per case

DESIGN: 5-compartment, stackable tray

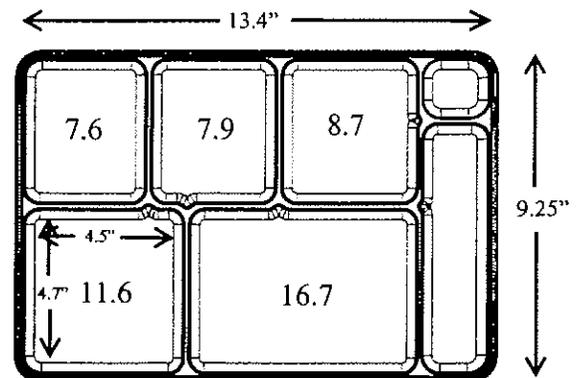

- Layout convenient for most all menus
- Stackable without lids in a straight stable column
- 1 2/3" total compartment depth prevents food from sticking to bottom of tray above. No need for lids on every tray to separate
- Can stack in either direction
- "Chimney effect" for greater temperature retention
- Each compartment is sealed off from each other
- Condiment compartment and flatware compartment
- More durable and less bulky than foam insulated trays

DIMENSIONS:

Length: 13.4" Width: 9.25" Height: 1.9"
 Compartment depth: 1.125"
 Underside depth: 0.532"
 Total compartment depth 1.657"

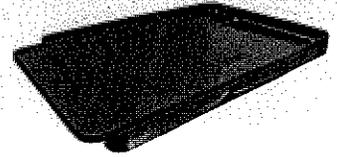

COMPARTMENT SIZES:

(does not include overhead space from tray above)
 16.7oz, 11.6oz, 8.7oz, 7.9oz, 7.6oz,
 7oz (flatware), 2.2oz (condiment)

(Lid for Self-stacking Tray)

Two Material Choices

MATERIAL: *Copolymer*

- Economical
- Break, chip, and crack resistant
- Can withstand temperatures from 0 to 212 degrees Fahrenheit
- Reusable / Recyclable
- Dishwasher safe / Microwave safe

MATERIAL: *Max-Flex Blend*

- Proprietary polymer formulation
- Too soft to easily fashion into a weapon. Material will tear instead of break
- Optimized durability. Stiff enough to resist wear in normal use
- Withstands temperatures from 0 to 212 degrees Fahrenheit
- Significantly cheaper and more earth-friendly than silicon
- Reusable / Recyclable
- Dishwasher safe / Microwave safe

COLORS:

BRICK	CHOCOLATE
	

CASE PACK: 12 lids per case

DESIGN: *5-compartment, stackable tray lid*

- Compartment layout matches tray to seal off each compartment
- Can use as the one lid on top of each stack of trays
- Can also use a lid on each tray. Corner ribs on top help center each tray for a straight stable stack
- 0.63" compartment height helps keep food from sticking to inside bottom of lid
- Can interlock on a tray in either direction

DIMENSIONS:

Length:	13.4"	Width:	9.25"
Total height:			0.86"
Underside depth:			0.63"
