Habitat for Humanity Newark Veterans Initiative

Habitat for Humanity Newark and the GI Go Fund have teamed up to build New Habitat homes and continue helping military veterans in need of safe and affordable housing in Newark, Essex County & Greater Elizabeth. At any given moment there are 300,000 veterans living on the streets of America. We are working to ensure that New Jersey veterans will one day break from this statistic. This project, designed to ultimately include a steady stream of homes, is the Veterans Initiative.

Now is the time to get involved. We need supporters to generously donate their time as volunteers and financial assistance as sponsors. Consider bringing together your employees, civic society, community organization, or faith-based group for a day of building. A valuable and fulfilling experience for all involved, the Veterans Initiative is a cause that strengthens ties in your personal team and greater community.

Nine homes at Harmony Point, are currently under construction in Newark's South Ward. These two and three bedroom, condo-style homes will serve the needs of our community, including its military veterans. The designs include accommodations for a person with disabilities such as wider doorways and wheelchair accessibility, as needed. Primary causes of homelessness among veterans are combat-related physical health issues and disabilities. In fact, one in 10 veterans is disabled.

Show your support for our bravest Americans. Get involved with our Veterans Initiative in any way you can.
