

Toilet Paper Tube Ecoart

Use your creativity to reuse a roll and make something fun!

At Trailside we love creating new things from items we'd otherwise throw away. Don't have a toilet paper tube? Cut down a paper towel roll! Using your imagination and some simple supplies around the house, have fun making some new creations. We've included some ideas for inspiration, but encourage you to see what your little one can come up with as well.

For step by step instructions and free printables where applicable, please visit the links on the images above
