

Life-size Burrow

Make a burrow big enough to crawl through!

Materials

- Large Cardboard Boxes
- Duct Tape
- Scissors
- Chairs
- Flat Sheet

1: Drape a sheet over a table or some chairs to create the main burrow

2: Use tape and large boxes open on the top and bottom to create tunnels

3: Add a few places with open flaps or holes cut into the tunnel to peek through to look for "predators"
