OFFICE OF HEALTH MANAGEMENT

The Union County Office of Health Management ensures to provide efficient health information alongside health services for the well-being of our communities. The Office of Health Management is a vital component of the emergency preparedness and response system responsible to plan and manage the health-related aspects of community response.

Within the Office of Health Management are the Office of Environmental Health and the Office of Public Health working together with a goal of a healthier and safer community.

OFFICE OF ENVIRONMENTAL HEALTH

The **Office of Environmental Health** works in collaboration with the State and local environmental and public health professionals to ensure a safer and healthier quality of life for residents.

The County Inspectors enforce State environmental regulations under the **County Environmental Health Act (CEHA)**, which covers **air pollution, solid waste, commercial above ground storage tanks, water, pesticides, and noise pollution**, by conducting inspections of NJDEP regulated facilities and responding to complaints.

OFFICE OF ENVIRONMENTAL HEALTH

Air Program

B Inspections

Our office conducts inspections to NJDEP regulated facilities verifying the compliance of the Air pollution permit and providing assistance to the facility owners. Our office assists the NJDEP program with the necessary documentation to verify their records.

Idling

Our office conducts inspections for idling. **Idling** occurs when a motor vehicle with a diesel or gasoline engine is running while the vehicle is parked. **Excessive idling** causes an unnecessary release of contaminants into the air. New Jersey has laws which prohibits idling for more than 3 minutes, with certain exceptions.

Dry Cleaner Inspections

Our office conducts inspections for dry cleaners, verifying the compliance of the air pollution permit. Also, we assist the NJDEP program with the necessary documentation to verify their records.

OFFICE OF ENVIRONMENTAL HEALTH

CEHA inspectors conduct various **pesticide inspections**.

Integrated Pest Management inspections are conducted at schools to ensure their compliance with NJDEP regulations. **Multi-dwelling inspections** are conducted to verify that pest control companies are correctly supplying documentation of applications to tenants.

Unregistered pesticide inspections are conducted at retail establishments to verify that products containing pesticides are in accordance with EPA regulations. **Landscaper inspections** are performed to ensure proper licensing and compliance with EPA and NJDEP regulations.

OFFICE OF ENVIRONMENTAL HEALTH

Noise and Water Program

The **Union County Office of Environmental Health (CEHA Agency)** investigates and enforces noise complaints received by the department in accordance with the **State Model Noise Code (N.J.A.C. 7:29)**.

Complaints are received from the New Jersey Department of Environmental Protection Emergency Notification Hotline and through citizen referrals.

We receive water complaints from the New Jersey Department of Environmental Protection referred complaints program and from residents.

Noise Complaints	5
Air Complaints	18
Water Complaints	23
Solid Waste Complaints	25
Idling	42

OFFICE OF PUBLIC HEALTH

The Office of Public Health works to maintain an Emergency CHAIN (**Community Health Alert Information Network**) as part of the **Union County Local Public Health Emergency Communications System**. Electronic dissemination of critical public health-related information from the Centers for Disease Control and Prevention (CDC), New Jersey Department of Health, and County/Local Health Departments is forwarded to designated groups and individual health care providers via the **NJ Local information Network and Communications System**.

Medical Reserve

Serving under the public health division, they have been key in helping in emergency situations

Local Health Departments

The office shares service agreements with 5 towns (Scotch Plains, Cranford, Berkeley Heights, Roselle, and Hillside) to provide health services.

OFFICE OF PUBLIC HEALTH

Emergency Preparedness

Emergency preparedness primarily focuses on the planning and response to disasters. According to the **World Health Organization (WHO)**, a disaster is classified to be a sudden phenomenon of sufficient magnitude to overwhelm the resources of a hospital, region, or location requiring external support. Emergency preparedness contains three main areas:

Emergency planning

includes care, evacuation, and environmental planning and response standards

Emergency Response

the main concern is distributing resources and help to the affected population

Salvage and Recovery

when the first two phases of preparedness have been executed and now the facility or area is back to normal operations

OFFICE OF PUBLIC HEALTH

Union County Medical Reserve Corps

*medical
reserve
corps*

The Union County Medical Reserve Corps is one of over 700 units in the MRC full individuals dedicated to emergency response and public health efforts. With over 250,000 volunteers, MRC helps organize emergency response after it was created due to the disorganization in volunteer response to the September 11 attacks.

Community Volunteers may be called upon to assist with administrative, clerical, reception, translation, phone, or other responsibilities. Medical professional volunteers may be called upon to assist with triage, nursing, counseling, medication dispensing or other responsibilities.

During non-emergencies, volunteers may staff first aid stations, share information at health fairs, and support public health campaigns. During emergencies, they may help address staffing shortages, distribute medications, and assist with disease monitoring and reporting.

OFFICE OF PUBLIC HEALTH

Union County Health Education Team

The Union County Office of Health Management's Health Education Team was able to complete ____ activities including health education presentations, health fairs, and community events in 2024.

Health Education

These events provided information on disease symptoms, risks, prevention, and local health resources. Topics included chronic diseases, respiratory illnesses, mental health, health literacy, and STI and pregnancy prevention. We also supported an HPV awareness campaign to encourage vaccination among tweens and young adults.

The Health Education Team was also responsible for creating supplemental health education materials as well as developing related activities to engage audiences, social media posts about health topics, and urgent public health alerts. Within these presentations, nutrition, physical activity, and moderation/cessation of alcohol and tobacco use were always emphasized.

OFFICE OF PUBLIC HEALTH

Union County Family Clinic

The Union County Family Clinic continued to play a vital role in protecting and promoting public health throughout 2025. Since opening in 2024, the clinic has served 15 municipalities throughout Union County. The clinic offers vaccinations that protect against preventable diseases, with a focus on infants, children, and eligible adults. Through the New Jersey Department of Health Vaccines for Children (VFC) and Section 317 programs, free vaccines are available to eligible children and adults, helping ensure access to essential immunizations across the county.

The clinic also offers tuberculosis testing and free physical exams for uninsured patient 5 years and younger residing in the municipalities of Berkeley Heights, Cranford, Hillside, and Roselle.

OFFICE OF PUBLIC HEALTH

Childhood Lead Poisoning

Our office receives all the cases of childhood lead poisoning for the municipalities that we cover (**Berkeley Heights, Scotch Plains, Roselle, Cranford and Hillside**). Our nurse proceeds with the investigation and follow-up on all the cases assigned by the **New Jersey Department of Health** until the case is closed. When a case requires environmental intervention our inspectors **perform the investigations and follow-up of the cases** until they are closed.

PREVENT LEAD POISONING
STAY LEAD-FREE
TEST TWICE BEFORE 3

Get your child tested for lead at ages **1** and **2** years, or as soon as possible before the age of **6**.

Sources of lead contamination:

Lead-based paint

Houses built before 1978 may contain lead-based paint.

Contaminated soil

Older homes near busy roadways with chipped or peeling paint.

Jobs/Hobbies

Construction, pottery, and demolition work.

Leaded pipes

Old water pipes with lead might contaminate drinking water.

Imported goods

Toys, cosmetics, candy, spices and cultural powders such as sindoor.

Herbal remedies

Some herbal remedies and traditional medicines.

Prevent Childhood Lead Poisoning

Exposure to lead can seriously harm a child's health.

Damage to the brain
and nervous system

Slowed growth
and development

Learning and
behavior problems

Hearing and
speech problems

This can cause:

- Lower IQ
- Decreased ability to pay attention
- Underperformance at school

OFFICE OF PUBLIC HEALTH

Retail Food Establishments

Local health departments are responsible for inspecting and regulating inspections of retail food establishments which consist of restaurants, grocery stores, mobile vendors among other retail facilities to establish accordance with safety and sanitation regulations.

The inspections are conducted yearly under state laws and regulations within Chapter 24 “Sanitation in Retail Food Establishments, Food and Beverage Vending Machines and Cottage Food Operations” (N.J.A.C 8:24)

“Risk Type 1 Food Establishment”

Means any retail food establishment that:

1. Serves or sells only pre-packaged, non-potentially hazardous foods;
2. Prepares only non-potentially hazardous foods; or
3. Heats only commercially processed, potentially hazardous foods for hot holding and does not cool potentially hazardous foods. Such retail establishments may include, but are not limited to, convenience store operations, hot dog carts, and coffee shops.

“Risk type 2 Food Establishment”

Means any retail food establishment that has a limited menu; and

1. Prepares, cooks, and serves most products immediately;
2. Exercises hot and cold holding of potentially hazardous foods after preparation or cooking; or
3. Limits the complex preparation of potentially hazardous foods, including the cooking, cooling, and reheating for hot holding, to two or fewer items. Such retail establishments may include, but are not limited to, retail food store operations, schools that do not serve a highly susceptible population, and quick service operations, depending on the menu and preparation procedures.

OFFICE OF PUBLIC HEALTH

Retail Food Establishments

"Risk type 3 Food Establishment"

Means any retail food establishment that:

1. Has an extensive menu which requires the handling of raw ingredients; and is involved in the complex preparation of menu items that includes the cooking, cooling, and reheating of at least three or more potentially hazardous foods; or
2. Prepares and serves potentially hazardous foods including the extensive handling of raw ingredients; and whose primary service population is a highly susceptible population. Such establishments may include, but are not limited to, full service restaurants, diners, commissaries, and catering operations; or hospitals, nursing homes, and preschools preparing and serving potentially hazardous foods.

"Risk type 4 food establishment"

Means a retail food establishment that conducts specialized processes such as smoking, curing, canning, bottling, acidification designed to control pathogen proliferation, or any reduced oxygen packaging intended for extended shelf-life where such activities may require the assistance of a trained food technologist. Such establishments include those establishments conducting specialized processing at retail.

OFFICE OF ENVIRONMENTAL HEALTH

Animal Control

Animal Control is provided through local health departments and administered through animal control officers (ACOs). The ACOs ensure the safe treatment of animals and educate the public regarding animal control safety.

Responsibilities of ACOs:

- Rescuing trapped animals
- Writing incident reports
- Provide humane care to animals under their supervision
- Enforcing licensing laws and other regulations that are related to this division

Rabies vaccines clinics for cats and dogs are offered at least once per year at your local health department. Contact the municipality for more information.

Berkeley Heights: 908-464-2700 ext. 2167

Scotch Plains: 908-322-6700 ext. 309

Roselle: 908-245-4700

Hillside: 973-926-4535

Cranford: 908-709-7238
